Back Pain???

From **Curt Ficinec**- Since 8th grade I've suffered from back pain. It all began in football practice. That's over 40 years of suffering I've endured. It's the reason I went to chiropractic college. I had to figure out what was wrong with my own back in order to fix others.

This morning while walking my dog I noticed something. I'm standing up straighter. I'm walking better and I have no back pain!!

You could say, "YEA, but you lost 40 pounds this year" but, I had back pain when I was 65 pounds lighter than this. You could say, "it's the working out" but I still had back pain when I worked out before. You could say, "it's a placebo" but I just realized it hasn't hurt in a while. You might say, "It's the nutritional products you take for joints" but I've taken those sorts of products for over 20 years.

Do you want to know the only thing I've changed? A little over 2 months ago I began taking a breakthrough nutritional formulation known as the AGE PILL. That's the only difference. Congratulations to ME! 40 + years of discomfort, sometimes so bad it made me sweat to move, GONE!!

Energy on Day 2

Today is my 2nd day taking the A.G.E. Pill and I can really tell you that my energy has increased, I feel more alert and different. After getting off work I walk up 6 levels in the parking garage to get into my car and would feel tired and stopped at the 6th level to catch my breath. Today I walked faster, and did not feel tired or breathless. I feel a good change in my body after taking only 12 Pills in 2 days. Mr Tom Mower, I salute you on this wonderful product, I will continue monitoring my body for more changes.

A testimonial from Rene in Texas on the AGE Pill...

I have had Lupus for four years now. One of the worst symptoms, I have wished away is my hypersensitivity to pollen. Anything else I could live with but not being able to go outside is just depressing. I have used masks and other things to accommodate myself to the outside. UNTIL

NOW.....Friday, I woke up with the death defying pain that I have got used to every time a cold front or storm comes in. And it lasts ALL day long and if I am lucky a pain killer will make it go away but comes back easily every four hours. ON Friday, it only lasted Four hours and it went away as if it had never been there!!!! I have waited for this day for a VERY VERY VERY long time.

Tonight there are storms in North Texas that started this morning. The pollen count is the following: The ragweed is high. The dust is extremely high. The tree is moderate. I should be laying on the couch with a horrible headache or going hoarse or my sinuses being clogged...NOTHING. I talked to my cousin and she even noticed. I DON'T SOUND SICK. FOUR YEARS, 1460 DAYS I have waited tried everything, read everything, secluded myself to my own little world so I could survive and not live. AND SISEL HAS CHANGED ALL OF IT. MY WORLD IS RIGHT SIDE BACK UP. I have been on the AGE pill for a month and added FuCoyDon and Eternity to it. Thank you, Tom Mower for making my life come back.....It has been a long long, long time.

From Tayla in Mass. another testimonial on the A.G.E. Pill...

I was intrigued to try the A.G.E pill & curious how much of a difference I'd feel and notice being only 24 and all... One thing I can say is I've never been a morning person. Sure, if I had to be up for something, and once I was up and at it with my Sisel Kaffe or Fire N Ice tea, I enjoyed the mornings, but it was never easy for me. I definitely liked my sleep & could sleep forever if I had no responsibilities.

This is my 4th day taking the A.G.E pill, and boy, has Tom Mower done it again!! I feel absolutely AMAZING. Yes, I'm "young", but there's a different kind of spring going on in my body & energy throughout the day. I feel like a completely different person. I wake up feeling very refreshed, energized and ready to accomplish my day. I have more clarity, positive thoughts & drive. I also feel more confident... Mind you, I've been out of my brain vitality, but once I took this, wow, I'm happy to see it helps with all of that as well!! I just can't believe how I feel immediately when I wake up.

I also notice some difference physically with my strength & appearance. Hard to tell in pictures right now, but hopefully I can get some good pics down the road. A.G.E pill is an absolute must in your Sisel regimen!

Age pill update funny thing noticed my eyelashes are much darker & thicker like I have a light coating of mascara plus eyebrows darker but one lone white hair is still there think I will pluck it out! Been on double doses about 6 weeks. Skin looking better, would love some fat loss...muscle tone in upper arms is better & strength coming back. Had a bad flu but believe sisel has lessened the extreme effects I usually suffer just a bark to get rid of.

Well my husband and I have been one month of the A.G.E pill 6/day dosing and here is what we have experienced.

Husband-Increased energy-further normalization of Blood pressure. He tends not to pay attention to how he is or feels so that he noticed this is great. I am sure there is more to come.

Me.-Fantastic Energy Less pains in joints. I am sleeping through the nite, my nails are no longer brittle and are growing like they never have, my hair is thicker, I have lost 25 pounds and the psoriasis on my knees is majorly improved. (see pics below pic on the left is 16/9 and the one on right was this morning.) To prove it I can say that I have been out of them going into my second 24 hrs (waiting on my Order) and last nite my left shoulder started severely paining me again and I couldn't sleep. I felt more tired yesterday and today. So I know these work and will not be without them again. Thank you Tom Mower

I've had excellent results after one month on The A.G.E. Pill including more energy, thought clarity, better firmer skin and a knee injury that kept me down for the summer being resolved. I'm absolutely thrilled with the results and the more I learn the more excited I get! I'm going to start a double dose for the next 60 days and would really appreciate any of your thoughts, insights and best ways to switch over. Also if anyone has gone from the regular dose to the double after they got started it would be great to know how it's gone. Thanks so much!

Well, it finally happened. After 8 days of being on the A.G.E. Pill, my personal results have been nothing short of spectacular. I'm 60 years old and still play competitive tennis. Check out my 8 day results.

1. My lower back pain (have had for many years) is 100% gone.
2. My Achilles Tendonitis is 95% gone. (had for 7 months)
3. Reduced pain in my knee. (had for 5 months)
4. My mental alertness and focus has definitely improved.
5. My recovery time after playing tennis has dropped from 4 days down to one day, sometimes even less.
6. Hair fallout after showering has been reduced by at least 75%.

This is by far the best product I have taken in 30 years bar none. I've never seen so many testimonials in such a short time, especially from all over the world. I believe this may be the best support possible for the body.

Thank you Tom Mower and Sisel International for always coming out with leading edge products that never include dangerous chemicals or ingredients.

After using this for just a few days, I started recommended numerous people to the AGE Pill the past few months. The testimonials coming back are promising to say the least. Here's just a few:

1. Better sleep – haven't slept this good in years
2. Drs asked what have I been doing as my blood pressure has dramatically reduced after years of medication
3. Massive energy. Can't believe how good I'm feeling.
4. People are noticing how good my skin is looking and asking me what I've been doing?
5. I've lost weight since using the AGE pill
6. Years of aches and pains gone I'm impressed. Thanks.

This is just a sample of the feedback from users of this great breakthrough formula.

If you're also using it, feel free to comment your feed back here.

sleep much less, lots of energy...I need to drink a lot of water and feel like I m always thirst and bitter mouth, but I think that' s how it must work when it starts. The first day i took three pills in the evening and the next morning I woke up before the clock rang with so much energy that I felt like I could afford a heavy gym' s session

Almost 2 months taking 12 AGE pills a day. I am amazed as I looked at a photo taken 6 months ago. Everyone says I look fabulous but I didn't realise there was such a difference. Thankyou Tom Mower. You are an amazing person for what you do for others.

From Riccardo Losco from Italy Who says he looks 10 years younger in just over two months of using The AGE PILL What do you think?. I think it's undeniable!

SISEL is great and the A.G.E. Pill is a true blast.

These two pictures were taken in April 2017 and October 2017. Same room and position, similar lighting, zero filter and the result is almost incredible. (

I was on other products and doing OK till August...then everything started to go backwards...

I started double dosing on August 16th till mid September when I slowed it down to normal, waiting for new bottles to come.

Now I'm ramping it up again.

So far I gained energy, softer and wrinkle free skin.

I recovered from a back strain in a few days, seen darker eyebrows and long eyelashes, my nails growing faster. Generally speaking I look and feel years younger and it's just the beginning.

I am so excited by the months to come that I can hardly sleep. Thanks Tom Mower, thanks Sisel.
