

STRANGE DAYS STRANGE SKIES

LIFE IN THE TIME OF CHEMTRAILS 1997-2009: YOU ARE NOW BREATHING ETHYLENE DIBROMIDE, VIRALLY MUTATED MOLDS, NANO-PARTICULATES OF ALUMINUM AND BARIUM AND CATIONIC POLYMER FIBERS WITH UNIDENTIFIED BIO-ACTIVE MATERIAL:

"We the people have not been warned, advised or consulted but are certainly vulnerable to the outcomes." Lightwatcher.com "Biologic components have been reported in airborne samples that include: [modified molds](#), desiccated red blood cells and exotic strains of bacteria" Additionally, award winning investigative reporter, Will Thomas, has reported findings of over 300 types of virally mutated fungi in the chemtrail fall out. The Idaho Observer has reported findings of 26 metals including barium, aluminum and uranium, a variety of infectious pathogens and chemicals and drugs including sedatives in chemtrail fallout. Dr. R. Michael Castle reports the finding of cationic polymer fibers. Dr Hildegard Staninger and Dr. Rahim Karjoom have reported findings of tiny parasitic nematode eggs of some type encased in the fibers. Additionally Drs. Staninger and Karjoom and researcher Jan Smith have reported findings of self-replicating nano-machines and rivers of silicon running wild through the bodies of the Morgellons infected. Researcher Clifford Carnicom has reported finding chemtrails fibers & abnormal blood cells that are an exact match with the bizarre fibers & blood cells found in those suffering from Morgellons Disease.

Welcome to the brave new world of toxic skies, weather control, mind control and population control through the use of chemtrails modulated with electromagnetic frequencies generated by HAARP.

Our health is under attack as evidenced by the skyrocketing rates of chemtrail induced lung cancer, asthma and pulmonary/respiratory problems as well as the emergence of a bizarre and frightening new plague, Morgellons Disease, an infection with a previously unknown agent that appears to be a synthesis of a bio lab created pathogen combined with self-replicating nano-technology. Over 60,000 families in the U.S. are now infected with Morgellons.

I am one of the infected. My health and the health of my family has already been drastically affected. There is a main-stream media blackout on this subject so the only way to get the word out is by word of mouth.

Realized or not people are already dying from chemtrail related illnesses. People are dying from Morgellons Disease. During this time of chemtrails a shocking drop in general life expectancy in the U.S. has occurred.

This situation presents an immediate and serious threat to you, your family and loved ones. We must join together to stop this insane program of chemtrail spraying now.

Some of you reading this may be in a position of influence and power to take significant action to bring chemtrails to a halt. Everyone can do something to help. Whatever your position or realm of influence please do whatever you can to bring an end to the aerosol spray program popularly known as Chemtrails.

ADDED 7/13/2009 FUND RAISING FOR A CURE At this point just stopping the chemtrails will not be nearly enough. It is becoming increasingly apparent to researchers that virtually the entire population has most likely been infected by chemtrail pathogens that cause Morgellons Disease. The government to date has basically done nothing to fund research to find a cure for the Morgellons problem. Scientist, Clifford Carnicom has proven himself to be a dedicated and formidable researcher into Chemtrails/Morgellons for over a decade. Working on his own without funding he has managed to make many important discoveries about the nature of Morgellons disease and about the effects of chemtrails on the environment and the population. If you wish to donate to fund research for a cure

LAB TESTS OF AIR GRAB SHOW MASSIVE CONTAMINATION

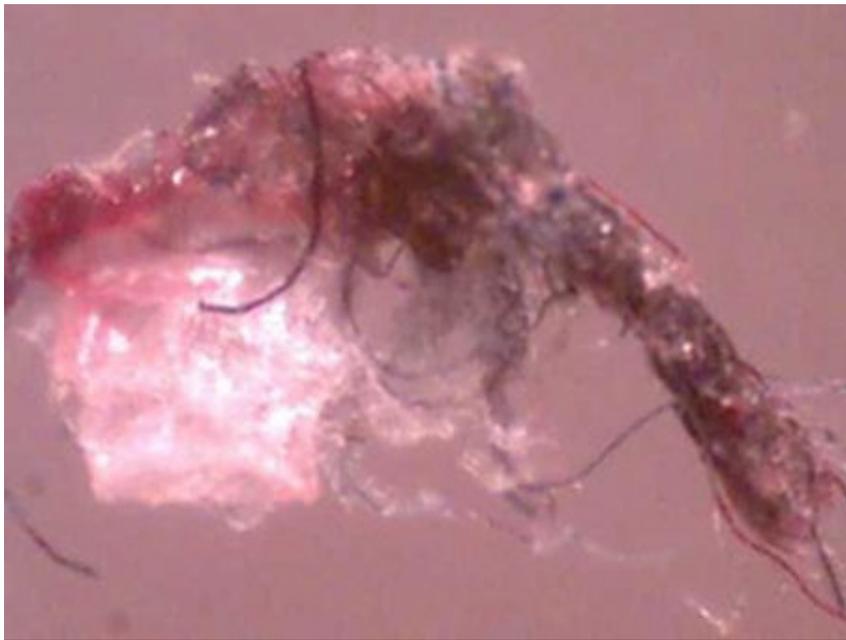

Please resize lab results to original setting to facilitate viewing.

An extensive air grab through a Hepa filter was done by Arizona Sky Watch for the purpose of testing for airborne chemtrail contaminants. The results are horrifying, showing massive contamination of our atmosphere. Inhaling these high amounts of metal particulates is very dangerous. Aluminum affects the brain and central nervous system. Barium lowers the immune system and can cause dose related paralysis including paralysis of the heart muscles, ranging from mild to total quadriplegia. All of these metal nano-particles are hazardous to the lungs and can cause a condition similar to Asbestiosis or Silicosis. [ARTICLE AT RENSE.COM](#)

MORGELLONS/NANO-TECHNOLOGY DISEASE & CHEMTRAILS

One aspect of the chemtrail story is becoming more and more a story about the spread of Morgellons Disease. The bizarre, unique fibers that have been found in the bodies of the Morgellons infected have been matched to fibers found in the chemtrail fallout and in rain drops. This suggests that anybody who breathes the air may have been exposed to this disease. Researcher Clifford Carnicom has recently reported that blood abnormalities that he associates with chemtrail infection are being found in just about everyone he is testing whether or not they show the visible signs of having a Morgellons infection [CARNICOM FINDINGS](#)

MORGELLONS / CHEMTRAILS LINK?

A report from one Morgellon's sufferer:

"In the fall of 1998 I was out in my garden working. The weather was warm and exceptionally humid and sticky. At one point I absent mindly scratched my neck and noticed that my fingernails came back absolutely clotted with white fibers. Out of curiosity I scratched several other areas of my skin with my nails and discovered that when scratched any exposed area of skin left my nails full of these clotted fibers. Whatever skin was covered with clothing did not have the fibers. The air must have been thick with these fibers for so many of them to be

layered on me like that. About a month later I started having unusual skin symptoms & not feeling well. I am very suspicious that these airborne fibers had something to do with my developing Morgellons.

MORGELLONS PATHOGENS FOUND IN RAINWATER?

More stunning evidence of a Chemtrail/Morgellons connection; Recent microscopic examination of rainwater by researcher, Lisa Jones has revealed contamination with pathogens that have strong similarities to the Morgellons pathogen. This raindrop image shows a fiber-like lattice with a lighter colored tube that appears to contain baby Morgellons pathogens. The "thornes" on the lattice appear to be designed to cause the organism to stick and catch on skin and clothing. The unnatural looking orangish-pink glow in certain areas of this tube look just like the unnatural appearing orange-pink glowing points that show up on many of the Morgellons organisms. Chemtrail dispersion of

Morgellons would be an obvious explanation as to why this stuff is showing up in rainwater. [IMAGE COPYRIGHT LISA JONES](#)>

LIFE EXPECTANCY DROPS TO 69.3 YEARS IN THE USA - HOW MUCH IS 8 YEARS OF YOUR LIFE WORTH?

In 2003 life expectancy in the USA was 77.6 years. The drop to 69.3 years since 2003, a drop of over 8 years in less than 6 years, is startling information. This period of time just happens to coincide with a time when there has been non-stop spraying of chemtrails coast to coast on an almost daily basis. There is plenty of scientific research proving that any increase in airborne particulates causes a corresponding increase in the death rate of the exposed population so imo the chemtrails are a glaringly obvious factor in this significant drop in expected life span.

TO PUT IT BLUNTLY IT APPEARS THAT THE CHEMTRAILS ARE ROBBING EVERYONE IN THE USA OF 8 YEARS OF LIFE.

ALPENHORN NEWS LINKS ILLNESS WITH YELLOW CHEM CLOUDS

Excerpt from story by Laurie A. Kelly

"Community after community continues to report that hundreds of people are becoming ill at the same time... following on the heels of heavy chemtrail activity... three physicians, all of whom asked not to be identified, have reported an increasing number of patients being seen for similar illness since December.

Persistent hacking coughs, upper respiratory and intestinal distress, pneumonia, extreme fatigue, lethargy, dizziness, disorientation, splitting headaches, elevated arthritis symptoms and unexplainable nosebleeds are just a few of the symptoms these doctors have described.

These doctors have said they are seeing larger

numbers of patients with these complaints during or within days after the times that the physicians themselves have observed a larger number of chemtrails in the skies above mountain communities."

LAS VEGAS TRIBUNE LINKS MASS ILLNESS TO CHEMTRAILS
FINALLY... a serious article about chemtrails in a major city newspaper.

A quote from the Las Vegas Tribune Chemtrail article by Marcus K. Dalton:

"Especially disturbing for residents of heavily chemtrailed communities like Las Vegas is a "chemtrail sickness" associated with heavy spray days leaving many stricken people complaining of the "flu" and acute allergic reactions months after the flu season has ended. Upper and lower respiratory and gastrointestinal ailments remain unusually high in many spray areas, along with debilitating fatigue - and something even more worrying.

What's going on?

Thomas is convinced that we are under "deliberate biological attack" by agents known only to top military and government officials responsible for permitting continuing over-flights by unmarked spray aircraft."

"And even in the face of government denials, environmental laboratories have begun to identify an extremely toxic component of the spray drifting over cities and countryside. Several independent sources claim that samples of fallout from the lingering smoke trails have been independently tested and found to contain ethylene dibromide (EDB)."

Since the Chemtrails begin appearing over Las Vegas residents have experienced a huge surge in respiratory problems and asthma.

An extremely hazardous pesticide, EDB was banned by the US Environmental Protection Agency in 1983...The 1991 Chemical Hazards of the Workplace warns that repeated exposure to low levels of ethylene dibromide results in "general weakness, vomiting, diarrhea, chest pains, coughing and shortness of breath, upper respiratory tract irritation" and respiratory failure caused by swell...

SAME AIRCRAFT AS U.S. BIO/CHEM WARFARE CRAFT
Comments from Ken Welch excerpted from an article exclusive to Rense.com, 1/5/06:

"Several things were immediately apparent about the spray planes. First, they weren't high enough to be making contrails and even if they were, the sprayed liquid was flashing into voluminous white visibility much too fast to have any connection with the process by which moisture in 1000 degree (F) jet exhaust can freeze into visible ice crystals. Second, you could literally watch the crew turn the pumps on and off [as the trails were being laid]... Third, during the first six months or so, all the photographed planes were military refueling tankers, the

aircraft that have the role of implementing Uncle Sam's chemical and biological warfare missions."

WIDESPREAD CHEMTRAIL SICKNESS IN IDAHO
SEDATIVES FOUND IN CHEMTRAILS

THE IDAHO OBSERVER

According to a report published 8/28/06 in The Idaho Observer recent lab reports found the following in samples of chemtrail fall-out: bacteria including anthrax and pneumonia, 9 chemicals including acetylcholine chloride, 26 heavy metals including arsenic, lead, barium, mercury and uranium, 4 molds and fungi, 7 viruses, 2 cancers, 2 vaccines and 2 sedatives.

UK SPRAYING GOT OUT OF HAND, TEMP MORGUES SET UP

Comments from Ken Welch, continued:

"Eventually the bug was isolated by an independent lab, which confirmed that it carried clear chemical markers of being lab created or manipulated. Because the US media is so well controlled, the epidemic of "Flu-Like" quickly became a non-event. In the UK, however, everyone was aware of the crisis because the UK test really got out of hand. Over 10,000 people died there, and health authorities were parking rented refrigerator trucks behind the hospitals to use as temporary

morgues. Many victims of "Flu-Like" died in a rather unusual manner. The lungs simply filled up with some kind of sticky gunk that couldn't be suctioned out or even removed surgically, and people were simply asphyxiated despite the best efforts of frantic medical personnel. There were no incidents in which any victim of "Flu-Like" transmitted the illness to another person."

CANADIAN CHEMTRAILING FOLLOWED BY
MASS ILLNESS
ITALIAN CHEMTRAIL RESEARCHERS COME
TO SURVEY US-CANADA

"... the Italians were especially interested in the experience of Espanola. Repeatedly overflown by photo-identified U.S. Air Force tankers spraying lingering white plumes that made people sick over 50 square-miles in the spring and summer of 2001, this small community west of Sudbury, Ontario was the first to petition a national government to stop chemtrail spraying. "I'm convinced people here have died as a result of this spraying, including a close friend," says an activist involved in the early protests there.

Vincent said that a village north of Venice has

experienced an aerial onslaught similar to Espanola's. In the Belluna valley, "people started complaining" after many took ill following heavy chemtrailing there."
