

4 North American Fluoridation "Trials" **(Grand Rapids, Evanston, Brantford and Newburgh)**

Fluoridation written by

Philip Sutton, DDS, FRACDS

Peer-Reviewed by

**Professor Maurice Betz, Dept
Head-Mathematical
Statistics, University of
Melbourne**

**Sir Arthur Amies, Dean of
Faculty of Dental Science,
University of Melbourne**

Australia's National Health and
Medical Research Council 1991:

**"...the quality of the early
intervention trials was
generally poor."**

Professor Hubert Arnold, PhD,
statistician from the University of
California at Davis who provides
a course on **"Statistical
Frauds"** states that the trials : <http://www.fluoridealert.org/uc-davis.htm>

**"are especially rich in fallacies, improper design, invalid use of
statistical methods, omissions of contrary data, and just plain
muddleheadedness and hebetude".**

**A sound basis on which a public health
measure must be assessed is not provided
by these trials.**
