

## Eternity\_Taking the World by Storm

3 April 2018

<https://sisel.net/eternity-taking-the-world-by-storm/>

Eternity is the perfect name for our superior concentrated elixir that floods the body with high powered anti-oxidants. These powerful substances help address the daily struggle we all face with oxidative damage from detrimental free-radicals.

The key to Eternity is a super concentrated ingredient called Resveratrol. This high powered anti-oxidant is found largely in the skins of red grapes. It can also be found in the roots, vines, and seeds, but its highest concentration is in the skin. Resveratrol is classified as a phytoalexin, which is an antibiotic-like substance that's produced when the plant protects itself from fungus, ultraviolet light, stress or trauma. This same protective property of Resveratrol can also be harnessed and used by us.

Free-radicals can set off internal inflammatory cascades and damage DNA which can become chronic and degenerative. Resveratrol address these issues head on with its free-radical scavenging capabilities. This powerful ingredient appears to hold one of the major keys to longevity, energy and DNA protection, and our unique process makes each liquid serving up to 250 times more available than encapsulated Resveratrol.

In a nutshell, we put lightning in a bottle. With [Eternity](#), you're ready to take the world by storm.
