

A pictorial example of skeletal fluorosis and one of dental fluorosis that I've not sighted previously can be seen by clicking on this link [http://ece.wpi.edu/~fjlooft/ASEE/28 fluoride filter.pdf](http://ece.wpi.edu/~fjlooft/ASEE/28_fluoride_filter.pdf) to a one-page article titled *Development of a Sustainable Fluoride Filter for Use in the Bongo District of Ghana, Africa*. The children below are examples of skeletal fluorosis (click here <http://www.fluoridealert.org/media/1998a.html> for the story).
