Chemtrail Pilot Blows The Cover of

OPERATION INDIGO SKYFOLD

CHEMTRAILS

By Michael Thomas February 4, 2015

“Maybe my fellow pilots will read or hear about this, and decide to come forward as well”.

Finally, a military pilot has stepped the unlawful and exceedingly destructive Global Chemtrail Program. As you read the text provided below, bear in mind that chemtrails are being sprayed 24/7 around the globe with terrible consequences.

For those uninitiated in the ways of atmospheric engineering, chemtrails are but one geoengineering technique that is being systematically used by the U.S. military. The following link provides an excellent overview of the geoengineering /chemtrail phenomenon, as well as an exceptional photo-doc. After all, only seeing is believing for most people!

CHEMTRAILS: A Planetary Catastrophe Created by Geoengineering

No matter what the stated reasons are the chemtrail jets, they are always told by their superiors that this ongoing and illegal atmosphere-altering program is being conducted in the interest of “national security”.

The whole intention behind geoengineering is as dangerously misguided as it is deceptively false. The indiscriminate, wide-area and systematic spraying of toxic aerosols throughout the skies of the world couldn't possibly have anything to do with “national security”. Those who buy into such a ridiculous concept have obviously been either brainwashed or bribed into believing such a ridiculous notion.

That's precisely why this unprecedented exposé is so important. Never before has anyone directly involved with the piloting of chemtrail airliners ever gone public. Not only does “Blue Jay 1”, as he is known, go public, he completely SKYFOLD. This single act of identifying the name of what is perhaps the most destructive government program in recorded history is extremely critical. Why?

Because it now gives the worldwide anti-geoengineering advocacy groups a target to hit within their own nations and governments. How, after all, could at every level – federal, state, county and city – be so clueless about a massive aerosol spraying program that is going on in the skies right above them?! Can any responsible representative continue to get away with it?

That's why this critical development is so huge. It is what we have all been waiting for, yet so few in the movement really get it. Which is why this particular message has to be taken to the wider public. Because at the end of the day every human being on every

continent will REALLY hate two things about the chemtrails.

I. Chemtrails routinely transform warm sunny days into cool cloudy ones.

No one likes to see their clear sunny days stolen after a couple of hours of chemtrailing. Day after day of overcast skies have profoundly changed many a locale which have traditionally experienced clear skies. Is there anyone who prefers damp cloudy days to dry sunny ones? Certainly the people of Florida and California want their fun in the sun. (...and their Vitamin D – Ed.) So does the rest of the USA.

II. Chemtrails contain a mix of toxic chemicals and poisonous compounds such as barium salts, aluminum oxide, strontium, mercury among many others, which eventually end up falling to Earth. The chemtrail mix of toxins inevitably forests, lakes and ponds, and lawns and gardens. How does one possibly stop the noxious chemicals from entering one's home and automobiles, office building and shopping malls? Who wants a toxic chemtrail brew dropped on them every other day?!

Geoengineering has proven—unequivocally—to be extremely detrimental to both human health and the greater planetary environment. As for the many gives an excellent summary.

Secret Chemtrail Pilot Speaks December 8, 2014

Posted by: The HAARP Report

For those who did not watch the video at this link <http://www.storyleak.com/chemtrail-pilot-blows-the-cover-of-operation-indigo-skyfold/>, the most important text is provided below.

The information below was received by the cousin of a pilot who flies chemtrail jets and is working on the inside. The operation is known to pilots and aviation crew alike as 'Indigo Skyfold'.

Pilots are to do to fly specific routes, while satellites control aerosol dispersal patterns. The pilots make course corrections from time to time, and perform landings - nance crews are rotated constantly, and only spend about 18 months at one given base, to keep pilots and their families from making too many friends, and ending up with "loose lips". They also rotate Each base covers a 250-mile zone, and three states, or an even larger swath of ocean.

They're told to simply do their job and "Shut the F*ck Up!" Their superiors tell them it's a matter of "National Security" newest technological weapons of war could easily penetrate America's air-space, at will. We are dedicated and committed to keeping our allies safe from the same skyward threats, so we extend the arm of protection to those countries are also building atmospheric shields, while at the same time trying to explore weaknesses in our ever-developing air and space based technologies."

Sounds more like a PR statement to me.

I think this pilot, either believes what he is told. Or, he is simply trying to sugar coat their Genocide Project.

December 8, 2014: My firewall detected multiple intrusion attempts when I googled the Indigo code as well. Zero info to be found on the internet for this operation. That is unique.

I received a rather lengthy reply from the chemtrail pilot. Here is text from their email:

December 8, 2014: "First of all I would like to say that I do not agree with my mission assignments, but what soldier ever truly does? Several of us have considered bucking the ranks, and going AWOL from time to time. We are kept in the dark when it comes to getting honest answers about what we are really spraying. Should they discover that we or our families are actively enquiring about the so-called 'chemtrails' term, then automatic and swift disciplinary action would be taken.

HAARP and radar are two other non-allowed research subjects. Unless our children are learning about these in base schools, we cannot educate ourselves or our children through any public education system. I would not intentionally spray my children or family with toxic aerosols, but as you must know, perhaps 80% of the pilots do not have any family or children.

Indigo pilots are chosen from top ranks within the Air Force, Navy, and Coast Guard. Most of the pilots are "hardened to humanity" and could care less killing America and the world. I swear to you, the majority of the pilots are like machines, I call them "Tanker Terminators". I should not be telling you this, but nearly from small unnamed islands, where newly constructed bases are being built at a rate of 8 per year. On these extremely remote islands there are HAARP rays of every possible design, with many arrays surrounding these islands within the depths of the ocean itself. The Navy has developed sophisticated underwater construction technology that allows fully autonomous robot submersibles to travel great distances, and even manufacture parts for these massive underwater arrays as they progress across the open sea floor.

Every time that you see or hear about military exercises at sea, they're basically there to give support and resupply their army of underwater robotic minions. There is possibly one aquatic robot per plane, and will soon be double that. You will never be able to Google Earth or Search any of this. Other than an occasional error in blurring some island bases, or smudged images of underwater arrays, it is impossible to locate all these advanced technological devices. They even paint fake clouds over some of our island installations to keep prying eyes away.

I have been shown some of these images by civilian friends. That is the reason I know this. I completely understand your concern for human safety, and here is the kicker. We are shown videos in our training of catastrophic destruction to our homeland by very sophisticated weapons, then told that these will be the consequences if we don't fly.

Our efforts in building a defensive atmospheric weapon shield are the only missions of its kind in the world. We are paid more than any other pilot for our service, other than Air Force One pilots who make as much or more and are kept in a dark, secret world for their own protection. They tell us that secrecy is our protection, and not to listen to any public rhetoric.

We all know about cyber program flash-point or FP-03 as it is known within the veteran community. This program is a self-destruct sequence that can be remotely activated from any ground, water surface, underwater base, as well as any other air mobile unit. The signal is encrypted through three satellites and cannot be jammed or blocked. At any given moment you could have only 15 seconds to make your peace with your God. They tell us that FP exists to keep planes from accidentally going down in heavily populated areas. They can remotely detonate our planes over safe zones, but in the back of your minds, our minds, we're pretty sure this is a fail-safe program to keep pilots from turning over assets to any public, private, or civilian authorities.

Have you ever seen any member of the crew survive the few crashes that have occurred? Every plane that has gone down was completely destroyed ... for good reason, I am sure. We risk our lives in more ways than one, every single time lower altitudes. We feel like a massive "Dark Force Empire" of crop dusters, and know that one night Bubba, or Billy Joel, spray their moonshine-making operation, or pass over an illegal Mary Jane crop.

I know for a fact that some planes have been shot at, and subsequently brought down by mostly Russian, Chinese, and Korean weaponry, but the media will never cover these events as they are not allowed to report on our flights either. That must be true, for I have yet to see a detailed or lengthy report of our missions on any public venue other than conspiracy shows and anti-government websites.

I risk everything for disclosing so much information and you will find few like me. Even my own flight crew would have me arrested and court mortadella if they knew of this dialogue. That is why I cannot email you directly, but from what your cousin tells me you are also risking everything just to get this information out to your colleagues.

Can you imagine that the government has labeled chemtrails as normal contrail activity?

I salute you sir, for standing up to the establishment and Big Brother. I would love to go home tomorrow and not rack except for a sweet little Piper Cub, or Rat Tail Barn Racer. I miss those beautiful blue skies from my youth, and I am ashamed for hazing over that dream.

More importantly, maybe my fellow pilots will read or hear about this, and decide to come forward as well. I only know a small fraction of the larger picture, as they compartmentalize everything. Should I become aware of any new cousin.

The man I have contact with says he senses a wavering within the ranks, and that a kind of mutiny is beginning to boil to the surface of this whole geoengineering global whitewashing, if you catch my drift. My cousin still has friends in high places too, so he is helping to protect the pilot.

This came December 11: Last word from the pilot and I quote. "All pilots on leave are required to report to their CO by Dec 15th for special training operations, to - ed to be initiated by January 21."

Those were his words, not the actual Air Force message. He wanted me to stress that. He believes that the focus of their **California and Texas, in order to advance the drought further into the heartland;** plus, he feels that a very **new and extremely toxic chemtrail mix is going to be sprayed, using new technology that makes these special**

chemtrails completely invisible. “Atmosphere shield of protection”, he doesn’t believe that either. So that is the end of the message from this chemtrail pilot.

From my own experience I’ve had a lot of contact with this guy for six months via the Internet, and basically everything he told me has turned out to be true, so I have no reason to doubt any of this, and hope you forward it.

This also indicates how difficult it is to fight this program because people inside the program are not subject to public opinion or exposed to public information sources. Therefore, we need to brainstorm and come up with the way to shut down this program, **as it is killing everything with toxic metals and other poisons.**

Conclusion

An active chemtrail pilot has quite courageously stepped out of the shadows at great risk to his career and his life. fast-growing community of anti-chemtrail advocates to disseminate his much needed message. Raising the worldwide awareness around this pilot’s unprecedented disclosures is essential toward shutting down the current form of global geoengineering.

Operation Indigo Skyfold has been OUTED. We now know its name. We now know how it works. We have been informed that it is being expanded in 2015 and is now more dangerous than ever.

Chemtrails must be stopped! Geoengineering must be terminated!

State of the Nation February 4, 2015

Author’s Note

Question: Have you noticed that 2015 has seen more spraying than ever – EVE-RYWHERE? It’s true, the chemtrailing is now totally out of control.

It has never been so important to post information like this on health blogs, environmental websites, social networks, alternative news sites, videos, and everywhere chemtrails are mentioned in order to broaden as many peoples’ awareness as possible! The ongoing environmental disaster and health catastrophe caused by chemtrails presents a great opportunity for people of all races and religions, nationalities and societies to cooperate, and unite around the protection of humanity and the preservation of the Biosphere.
