

Sisel Pays Out Hundreds of Thousands in Platinum Rewards

Sisel International has just distributed the first payment associated with the Platinum Partner Rewards Program. With thousands of vouchers representing hundreds of thousands of dollars, the program has been a runaway hit with Sisel Distributors around the world. This unique program helps reward distributors for doing the basics that help to build their businesses.

The Platinum Partner Program is designed to help distributors recruit and retain new partners and drive the sales volumes in their organizations. Qualifying for the program is easy: distributors and customers simply place either an Automatic Purchase (AP) of 50 PV or more (which drives Retention), or purchase a minimum of 150 PV (which increases purchase size). Either option has a favorable effect on your business—so both are rewarded with the best discounts and rewards Sisel offers. To make it as easy as possible to meet this requirement, this purchase may be made in the current month or in the previous month.

“Hundreds of thousands of dollars have been paid out to our loyal distributor base,” said Aaron Rennert, VP of Sales for Sisel International. “The response to the Platinum Rewards Program has been phenomenal. We have sent out thousands of product vouchers. The great thing is that these people were buying these products anyway, but by buying them from themselves they now get all of the benefits of the Platinum Rewards Program. When they bought the product they received an additional discount, now they are getting these great vouchers, and if they keep going, they will get all of their shipping refunded at the end of the year.”

More information regarding the Platinum Partner Program can be found at <http://jdarling.mysisel.com> Select “Opportunity” Scroll down the menu bar to “Platinum Rewards”
