Supermarkets' Bloody Vaccination Campaign Advances Health Care Reform by Lethal Injections

By Dr. Leonard Horowitz and Sherri Kane

Wondering why food stores and pharmacies have replaced doctors offices and clinics as vaccination stations? Ask Steve Burd, the wizard behind Obama's Health Care Reform plan.

Burd, the Chairman of Safeway Supermarkets (VONS, Pavilions, and more) is also the founder of the Coalition to Advance Healthcare Reform (CAHR) in the US., and Burd has his fingers in more pies than healthcare. His partners genocidal operations are evidenced in shocking documents delivered by these authors to the FBI last week proving Safeway's vaccinations and health care promotions are dangerously impure and unsafe.

Burd's ties to the worlds most powerful vaccine lobby and biotech trust, Partnership for New York City (PNYC), best explain why Safeway is heralding and administering shots, including the new H1N1 flu vaccines, like never before.

Safeway and Burd's conflicting interests are alarming. Partners in the PNYC includes Safeway owner Kohlberg Kravis Roberts (KKR) that acquired the chain in 1986. Burd and Lloyd C. Blankfein of Goldman Sachs are the two highest paid CEOs in America, both are high profile corporate members of the most powerful Business Council in the world, and both maintain tight connections to the drug-ring implicated in creating and circulating the 2009 pandemic.

The BusinessCouncil.org directed America's transition out of the Great Depression advising Congress to advance the Security and Exchange Act, the Banking Act, and the Social Security Act of 1935.

Experts believe that foul play is obviously behind the current pandemic as evidenced by the virus's genetics. The feared flu is a laboratory-recombinant of swine from Mexico, avian (bird) from Asia, and a human corpse contaminated with flu genes from the 1918 Spanish pandemic unearthed despite protests from scientists worldwide. The official explanation alleges an impossible, natural mating of genes from some Asian chicken, Mexican pig, and a dead-corpse buried for nearly a century.

Common sense and chilling documents sent to the FBI by these authors discredit official explanations for this pandemic, and this is not the first time this kind of accident has happened. The laboratory sourced 1977 outbreak of H1N1, a virus that went extinct for 20 years was recently acknowledged in the esteemed New England Journal of Medicine.

Boycott Safeway Now!

In many Safeway stores, persuasion begins at the door. A teen, knowing nothing about vaccines, hands you a flier encouraging you to visit the pharmacy for your "impulse flu shot." He excuses himself for his ignorance using the Nuremberg defense, "I'm just doing my job."

Safeway customers never learn their pharmacists know little about the H1N1 vaccine. Proprietary ingredients in these vaccines are purposely undisclosed by Burd's partners, the vaccine makers, including Novartis, CSL, Baxter, and Glaxo-SmithKlein. Thus, the inoculations contraindications are missing from Safeway's pharmacists brains.

When on a recent visit to Safeway, Ms. Kane asked the pharmacist if he would take the shot. He replied, I am not going to lie, no, I won't take the vaccine. Five minutes later the man pleasantly provided the flu shot to a customer conned by the promotion to save 10% on her next grocery bill; so the impulse inoculation would cost her less than \$20. This recession savvy promotion at check-out got her to take the shot.

Discounted injections are most profitable as they secure people's dependency on the store's pharmacy. Common vaccine and drug side effects last for years, and prescribed medicines generate greater toxicity causing additional diseases. Experts shudder to think vaccine ingredients include toxic oils, heavy metals, poisonous chemicals, anti-HIV spermicides, and (in the UK) a cancer virus believed linked to the origin of AIDS called SV40.

Incredibly, the live genetically-engineered H1N1flu viruses in Safeway's vaccines are expected to mutate rapidly

with other circulating viruses including flu strains, common cancer viruses like Epstein Barr, and even HIV, potentially yielding new more deadly pandemics rivaling AIDS and the 1918 Spanish Flu.

As far as medical doctors are concerned, Safeway stores are considered competitors or travel medicine providers (TMPs), according to the Infectious Diseases Society of America (IDSA). You get what you pay for, one official told us wishing to remain anonymous. Safeway is hiring these untrained and unqualified TMPs to administer these risky vaccines.

One of Safeway's former pharmacists explained that their best druggists are fired whenever they raise reasonable objections to vaccinations. Thus, Safeway's tenured pharmacists tend to remain lame.

For all the above reasons, an immediate lasting boycott of Safeway is indicated.

Deadly Vaccine Additives Not Disclosed

Safeway is heralding the new H1N1 flu vaccines for pregnant women despite the spermicides in these vaccines being linked by scientists to birth defects and spontaneous abortions. A main ingredient in the European injections is MF59TM with nonoxynol-9 spermicide. According to science, the MF59 with squalene alone might harm or even kill 59-out-of-60 people who buy into the stores propaganda.

Safeway's propagandists are none other than David Rockefeller's partnered media moguls: Rupert Murdoch, Mortimor Zuckerman, and Thomas Glocer--the worlds premiere mind-setters. Their companies, include Time Warner, FOX and Reuters are serving psychological operations for global depopulation. They all subscribe to the Population Council of the City of New York founded and still funded by Rockefeller entities. Their newswires neglect these deadly ties to Rockefeller cronies that include The Business Council, The Population Council, Kohlberg Kravis Roberts & Co. (KKR), and the Partnership for New York City (PNYC) that was chartered by the British Royal family. These partners promote deadly vaccines, allegedly for humanities salvation, creating immunological destruction for widespread depopulation.

Especially implicated in this conspiracy tying mainstream media to mass murder in medicine is the vaccine oil adjuvant made by the Chiron Company. Hideously toxic and unlicensed for use in the U.S, the rest of the brainwashed world is opting for poisoning by Chiron's MF59, among 2693 different chemicals produced by this company for the petrochemical-pharmaceutical cartel. Chiron was criminally investigated in 2004 when millions of doses of its flu vaccines were contaminated with bacteria. The company then hired Enron's attorney, Washington defense lawyer Robert S. Bennett, to defend its position.

More recently, Chiron was acquired by Novartis, another drug giant joining Merck, Pfizer, Glaxo-SmithKlein, CSL, and other PNYC and Business Council members advancing American Health Care Reform ala Safeway's Burd.

Tainted Blood Benefits Advanced by Health Care Reformers

Have you ever wondered who tests the world's blood supplies for deadly contaminations? Who will test your blood following forthcoming H1N1 vaccinations? The answer is Chiron.

The blood banking industry has been run, historically, by the Rockefeller family. First, the Rockefellers assembled a group of doctors they called the The New York City Blood Council. This became the New York City Blood Bank. This bank evolved into the American Red Cross. The Red Cross, Baxter Corp., and Bayer A.G., were sued for spreading a host of viruses using contaminated blood supplies and blood products. These pathogens included HIV/AIDS, hepatitis B, C, and D, and herpes viruses, including cancer triggers HPV and Epstein Barr. Industrial blood-letting during the 1970s and 80s required Chiron's patented nucleic-acid testing system. now used to screen blood donations. (PR Newswire. UK.)

David Rockefeller, the Founding Chairman of PNYC, partnered with the trust's Co-chairman, Rupert Murdoch, whose Australian family tests Chiron's adjuvants. Murdoch's grand matriarch, Elisabeth, runs the country's main hospital. Rupert's daughter-in-law, Sarah, oversees the Murdoch Children's Research Institute (MCRI) and its Development Board. The MCRI was established to serve Queen Elizabeth of England, in 1986, the year Safeway was acquired by Burd's employer, KKR; and the same year hepatitis C was allegedly identified by Chiron's blood analysts.

The source of that virus reveals how infiltrated the US military is by the drug industry. The hepatitis viruses were developed along with vaccines at the New York University Medical Center's bioweapons labs under Army contracts funding research conducted by Dr. Saul Krugman collaborating with the NYC Blood Bank. Dr. Krugman and federal investigators used hepatitis viruses, injected into mentally-retarded children at Willowbrook State School during the late 60s and early 70s. Today's hepatitis B and C pandemics are

attributable to these experiments and blood supply contaminations according to government documents reprinted by Dr. Horowitz in his national bestselling book, *Emerging Viruses: AIDS & Ebola: Nature, Accident or Intentional?* (Tetrahedron, 1998; 1-888-508-4787).

The American Baxter Corporation, serving Europe exclusively, doesn't cite Chiron's MF59 in its patented vaccine manufacturing process, only oil in water meaning squalene.

Baxter does, however, cite their use of VERO monkey kidney cells to culture their H1N1 viruses that are routinely infected with the SV40 virus scientists have linked to pandemic cancers and even AIDS. Dr. Maurice Hilleman, the world's leading vaccine developer for Merck & Co., testified that America got AIDS from SV40 vaccine contaminations sourcing from the same species of African green monkeys used by Chiron.

Bureau of Biologics federal investigator, Dr. Bernice Eddy, warned Congress in 1972 that Merck's SV40-contaminated polio vaccines would curse the world with pandemic cancers by 1992.

Additional science published by Dr. Horowitz revealed Merck's hepatitis B vaccine was produced using African chimpanzees contaminated by the same American monkey supplier, Litton Bionetics, the Army's sixth leading biological weapons contractor at that time. In these trials, gay men in NYC were inoculated simultaneously with African villagers transmitting chimpanzee SIV, the closest match to human HIV in the world.

Perhaps sterilizations, spontaneous abortions, and widespread birth defects best explain the injection of H1N1 vaccine adjuvants containing nonoxynol-9 into pregnant women. The spermicidal HIV killer, and specious immune stimulator Interleukin-2 (IL-2), is less known as vaccine additives. IL-2 was co-patented by America's AIDS czar, Dr. Anthony Fauci--the federal government's principle promoter of the new H1N1 vaccines. Fauci was previously charged with conflicting interest related to his IL-2 license to Chiron. In recent studies, his IL-2 produced zero benefits for AIDS patients consuming the risky drug derived from white blood cell extracts.

More Partners Poisoning the Public

Safeway is not the only billion-dollar company partnered with Steve Burd in this sinister flu scam and agenda for Health Care Reform. Costco is also offering flu vaccine specials this Fall. For your convenience, Costco hypes coffin sales adjacent vaccination appeals in their member registration area providing one-stop-shopping for euthanasia.

This makes a great package deal, because if you can't resist the flu shot, you may need the coffin, Ms. Kane told Costco's membership manager, just as a customer was inquiring about getting the flu shot.

People generally accept the idea that drug companies spread propaganda, side-effects, and widespread illnesses for profit. Most people, however, have a problem relating to depopulation as the overriding goal of poisoning people, since fewer live-bodies means less customers and lower profits.

It's like the end of a monopoly game, Dr. Horowitz concludes. This ilks wealth and power corrupts absolutely, and David Rockefeller can't put planet earth away in his closet. The PNYC winners are simply rearranging the board and getting rid of the players they no longer want around.

NOTE TO JOURNALISTS: Dr. Horowitz and Sherri Kane are advancing Healthy World Organization (HWO), a natural alternative to the UN's World Health Organization. Information about HWO is available at: HealthyWorldOrganization.org. For more information about the dangers of flu vaccinations, see Dr. Horowitz's comprehensive website FLUscam.com. Dr. Horowitz endorses natural alternatives to vaccines including the new silver hydrosols, vitamin C, and vitamin D. See his FLU & TO Dos and OxySilver.com
