Ukraine's Pneumonic Plague: A New Strain of Flu Many Times More Lethal Than H1N1

There is a very organized and structured system among us to coordinate the release of a weaponized flu with the goal of killing people at unprecedented rates. The pneumonic plague now being witnessed in the Ukraine may be just the beginning of this global effort.

Deadly Swine Flu Recombination Predicted by American Doctor...

Warnings that the H1N1 Swine Flu virus would mutate into a much more deadly strain have come true according to President Victor Yushchenko. The Ukrainian politician, vying for re-election, declared martial law last week in a move that reflects gross negligence and criminal malfeasance, according to intelligence sources provided by American public health expert, Dr. Leonard Horowitz.

One Flu Over the Ukraine's Nest

November 3rd, 2009 6:32 AM, by Edgar J. Steele

I have seen a number of Internet postings on the Ukrainian epidemic and, even, a few UTube videos already. I have heard the story developing since last week from correspondents of mine in Ukraine who have been witnessing things first hand. School and public offices have all been closed. President Yushchenko has declared a state of emergency and issued a plea for international help. Reports of up to 3,000 deaths (unconfirmed) already are leaking out...
