### **Murdoch Tabloids Strike Dr. Wakefield to Market Deadly Vaccinations**

The PharmaMedia, led by Rupert Murdoch's tabloids, are making Dr. Andrew Wakefield a BigPharma patsy in their desperate effort to bandage the public's hemorrhaging confidence in vaccinations.

Rupert Murdoch's family and business partners are heavily invested in BigPharma, and are losing billions of dollars annually due to growing distrust of media propaganda and widespread aversion to vaccinations.

Murdoch's media, the most powerful in the world, claimed in their [TimesOnline](#), that the public's rejection of MMR vaccinations was caused by Dr. Wakefield's publication in *The Lancet* in which he and his co-authors evidenced links to autistic children from the mercury-laden shots.

Quite to the contrary, like the deadly H1N1 vaccine marketed for the 2009 "manufactured pandemic," there were hundreds of medical doctors and scientists who sparked worldwide concern over the MMR vaccine and others containing neurotoxic mercury.

According to BigPharma investigators, all vaccines function as though they were biochemical weapons of mass destruction; ideal for profitable depopulation.

Allegedly, Dr. Wakefield's ordeal with a kangaroo medical court is a blow to the heart of the anti-vaccination movement. In fact, it is just adding heat to the firestorm of condemnation focused on the revolving doors between BigPharma and the agents and agencies advancing propaganda and vaccination policies.

"*The Lancet* said it should not have published the study," the Associated Press reported, and that Wakefield's links to litigation against the manufacturers of the MMR vaccine were a "fatal conflict of interest."

"The most 'fatal conflict of interest' is Murdoch's private equity investments in the drug companies and vaccine makers that make people sick from side effects caused by their unsafe and largely ineffective products," reports Dr. Leonard Horowitz, Editor-in-Chief of [Medical Veritas](#) (Medical Truth) journal on whose advisory board Dr. Wakefield has honorably served for years.

Few people know that Rupert Murdoch serves as a director of the Associated Press, News Corporation, FOX News, Time Warner, and many more mainstream media companies including the *TimesOnline* that broke this story.

Propaganda is used to control people's minds, and vaccinations are used to contaminate people's bodies with agents that produce deadly debilitating diseases that are said to require medical management.

Controlling diseases and people this way, including the vast majority of autoimmune diseases and cancer patients, is obviously most profitable for the world's leading drug makers; especially Merck & Co., and GlaxoSmithKlein (GSK). James Murdoch, heir apparent to Rupert's fortune, oversees GSK's board of directors, according to the company's website.

Rupert's partners in pushing propaganda and public intoxications through vaccinations for global depopulation, include Thomas H. Glocer, director of Reuter's News Service and Merck & Co. Murdoch and Glocer are also partners in the David Rockefeller founded, Royal Family of England chartered, [Partnership For New York City \(PFNYC\)](#)--the world's most powerful drug ring and biotechnology consortium.

"Dr. Wakefield's crucifixion is a desperate well-orchestrated effort to restore faith in risky vaccinations that the majority of people worldwide no longer trust," said Dr. Horowitz.

"In its ruling, the disciplinary panel concluded that Wakefield acted dishonestly and was misleading in the way he described his study," the Murdoch-directed AP reported. Wakefield's medical jurists said he should have disclosed his expert witness fees paid by lawyers acting for parents whose children had been killed or damaged from vaccines.

"How's that for the pot calling the kettle black?" Dr. Horowitz asked Steve Gilmour on the BBC Affiliated Talk Radio Europe, referencing Murdoch's dishonesty and failure to disclose the financial reasons his newspapers persecute Dr. Wakefield. "Such yellow press exclusively benefits the Rockefeller-directed PharmaMedia." ([Click here](#) to listen to this interview on You Tube.)

In "[Pharmaganda: A Study of Conflicting Interests](#)," Dr. Horowitz, and Murdoch News Corporation defector and investigative journalist Sherri Kane, co-authored an expose on the PharmaMedia and their monopolization of medical education and public persuasion.

[Horowitz and Kane investigated](#) David Rockefeller's leadership and partners in the PFNYC in which Rupert Murdoch serves as Co-Chair. These authors concluded that the PharmaMedia's persecution of Dr. Wakefield further evidences a "hostile takeover" of science, medicine, and common sense.

This "conspiracy reality" is adequately detailed in the current issue of [Medical Veritas](#) (freely available online until February 15, 2009.)

The other PFNYC Co-chair is Lloyd Blankfein, CEO of Goldman-Sachs who also directs ABC-Disney and AstroZeneca--a company that joined Merck & Co., and GlaxoSmithKlein, in producing H1N1 vaccines for world consumption.

"After the H1N1 vaccine fraud was exposed, more than half of the medical doctors worldwide, and more than sixty-percent of nurses in the UK and America, refused to take or give these deadly shots," Dr. Horowitz explained. "The billions of dollars of unsafe and generally-ineffective vaccines stockpiled by governments are now a major liability, not only financially, but in terms of reliability of the vaccine industry and information sourcing from David Rockefeller's malfeasant officials in the World Health Organization (WHO). After their 'shortage marketing' efforts failed, they began using every possible ploy to use up these deadly vaccines."

The PharmaMedia has published nothing about the EU Parliament Council's investigation of the WHO conspiring with the vaccine industry following the scientific fraud and public fright orchestrated by these suspects, Dr. Horowitz notes. He charges those aiding and abetting BigPharma, secreting this urgent information, with administering "iatrogenocide"--medical mass murder.

"Wakefield probably gave youngsters five pounds each at his son's birthday party as a gift for helping to advance legitimate vaccine science with parental permissions," Dr. Horowitz concluded. "It is pathetic this kindness is being used against him as an alleged ethics violation...."

"Dr. Wakefield is only guilty of joining hundreds of other scientists proving what common sense tells any reasonable person--injecting people with toxic chemicals and heavy metals, including mercury, in these biochemical weapons, called 'vaccinations,' is risky and often deadly."

#### **NOTE TO JOURNALISTS:**

The PharmaMedia has declared war against common sense and honest doctors. Dr. Leonard Horowitz, like Dr. Andrew Wakefield, was just targeted by SHOWTIME's producers of "Penn&Teller's Bullshit!" to be discredited for his endorsement of [OxySilver](#)--a natural alternative to risky vaccinations and deadly antibiotics. Dr. Horowitz and Ms. Kane organized a "counter sting" that will soon be made into a documentary titled, "**PharmaWhores: The SHOWTIME Sting of Penn & Teller**". Stay tuned to Dr. Horowitz's [YouTube channel](#) for movie trailer broadcasting soon. Watch for the launch of PharmaWhores.com

Dr. Horowitz's official website is [DrLenHorowitz.com](#). He is the author of sixteen books including three American best-sellers, [Emerging Viruses: AIDS & Ebola--Nature, Accident or Intentional?](#), [Healing Codes for the Biological Apocalypse](#), and "[Healing Celebrations: Miraculous Recoveries Through Ancient Scripture, Natural Medicine and Modern Science](#)."
